ABOUT ME

Currently I'm in my third year of studies towards a bachelor's in Information Technology. I've always been very self-motivated and dedicated to achieving my goals. I possess excellent communication skills and I'm constantly looking for a way to upgrade my technical skills. Something that I'm deeply proud of is my very first app, that I've been working on since the beginning of this summer: <https://github.com/KristinaKrastanova/Drinking-Game-App>

VOLUNTEERING

05/2020 – CURRENT

● Volunteer in association "Nothing is impossible"

I participate in online meetings with people from club "Kite". They are sunny and kind young people with mental health issues. I really enjoy talking and spending time with them during the meetings. As a volunteer I help with the activities - suggesting and playing different kind of games along with the members of the club.
